EXPERIENCE

Connectify, Inc. — Philadelphia, PA

Software Engineer — August 2019 – June 2021

- Iteratively worked on development for the Angular front-end for Speedify, an app with over 10 million downloads
- Developed an Android VPN app (EdgeWise Connect) from scratch using the Speedify SDK
- Worked with the design lead to make UI changes in Angular to Speedify based on Figma prototypes
- Created and maintained Java Android apps for external clients
- Helped develop A/B tests that led to a 60% increase in revenue through in-app purchases

Brandywine Global Investment Management — Philadelphia, PA

Software Engineer Intern – Front Office — April 2018 – April 2019

- Contributed 40% of all code changes on GitHub towards a React PWA
- Reworked existing C# ASP.NET APIs to get data from Access MDBs and connected it to the front-end
- Collaborated iteratively with business stakeholders to gather requirements and delivered results on time
- Worked with the Director of IT to establish UI standards and best practices on technologies and frameworks

Software Engineer Intern – Production Application Solutions — April 2017 – April 2018

- Developed, tested, provided support for, and deployed over 100 Perl jobs and SQL code for company-wide upgrade
- Created data services and applications in C# to replace over 20-year-old Microsoft Access files

KPMG — Delhi, India

IT Advisory Intern — July 2016 – September 2016

- Implemented and managed Microsoft SharePoint
- Developed material to help management understand global investment opportunities

SKILLS

Programming: Python, Java, C#, C++, Android Native (Java)

Web Development: JavaScript, React, Node, Angular

PROJECTS

Kaptilo — Philadelphia, PA

Software Engineer and Project Lead — September 2017 – June 2018

- Developed an Angular front-end and complete back-end infrastructure for the app (IIS Server + MS SQL Server)
